

BAT CONTROL AND EXCLUSION SOLUTIONS

Safe, compliant bat control for your business.

Bats are protected by regulations, but when they enter a commercial facility, they can create serious health, safety, and compliance risks.

Our professional Bat Control and Exclusion services help resolve the issue safely and humanely, using proven methods that protect your business while meeting all applicable regulations.

BENEFITS OF PARTERNING WITH US

- Trusted provider that understands your business needs.
- Specialized bat management technicians.
- Company-operated global research centers.
- Deep experience in your local area.
- Sustainable, technology-driven solutions.

BAT INFESTATIONS MAY RESULT IN:

- Structural damage
- Foul odors
- Public health concerns
- Secondary pest problems
- Employee or customer complaints
- Operational disruptions
- Slip and fall hazards
- Noise

OUR 4-STEP MANAGEMENT APPROACH

ASSESS

Our experts perform a detailed inspection to locate existing and potential bat entry points throughout your facility.

EXCLUSION AND EVICTION

We seal all potential openings except those currently used by bats to enter or exit.
We introduce tools like bat cones or netting that allow colonies to exit, but not return.
Once the entire colony has left, we seal the remaining openings.

CLEANING AND SANITATION

Our team will discuss with you any needs to clean and sanitize the area.

ANNUAL MONITORING

If requested, we can return each year to inspect and seal any new entry points.

TYPICAL ROOSTING AREAS

Eaves and shingles

Lofts and attic spaces

Steeples, bell towers, cupolas, and chimneys

Bridges, tunnels, and parking garages

Structural voids

Stadiums

COMMON INDICATORS OF BAT ACTIVITY

- Bat sightings around dusk or dawn.
- Noises, such as squeaks or flutters.
- Grease or oily rub marks around entry points.
- Injured or dead bats.
- Guano (droppings) and ammonia-like odor.

Our Bat Exclusion Work is backed by a 1-year guarantee. If bats return to the same space after final exclusion components are installed, we will come back to remove them and repair the work.*

*Service terms and additional limitations defined in your Plan. Guarantee applies only to areas where exclusion service(s) performed. Bat removal may only be conducted in accordance with applicable law.
